

EVEREST WATER

“Water For The World”

- Only 1 % of Earth's water is drinkable
- That 1% is shared between man, plants and animals!
- We are polluting that 1% beyond our ability to cleanse it
- Good news! A new source of fresh water has been found!!!

Atmospheric Water Generators

Harvest the Sky with an Everest AWG:
Water from the Air we Breathe

Model: Yeti-09

| | |
